Annualised return:	7.6%
Annualised volatility:	6.7%

Regional allocation

Asset allocation

Currency allocation

Sources: Momentum Global Investment Management, JP Morgan Bank (Luxembourg) S.A., Bloomberg.

¹ The peer group median is a composite of (i) global peers and (ii) local peers, in the ratio 1:2. The return of the global peer group each month receives a weight of one-third, and this is added to the return of the local peer group which receives a weight of two-thirds; together these two numbers produce a single composite peer group return. This weighting methodology is consistent with the "normal" asset allocation of the Fund, with a two-thirds bias towards "home" country assets and currencies.

■ Manager commentary

The final month of 2013 brought with it a continuation of the main theme of the year, namely positive returns for equities and a negative month for global government debt. The Harmony Euro Balanced Fund returned 0.3% in December. For the calendar year the Fund has returned 8.3% net of all fees. The European government bond market returned -0.7% in December, while the region's stocks returned 0.8% in euro terms. The Fund's asset allocation policy had a positive impact on absolute and relative returns last month, with our decision to avoid government bonds in favour of various aspects of the credit markets benefitting performance as these assets in aggregate outperformed sovereign paper. While the Fund is neutral to global equity, the small overweight to global emerging markets equity detracted from performance. Furthermore, the Fund is overweight cash which proved to be a store of value in a month where global government bonds sold off. Finally the decision to underweight global property securities aided relative performance as these underperformed the broader equity market.

Going forward, with uncertainty remaining over the strength of developed and developing world economic growth combined with the potential for tightening credit conditions, investors should look to retain a prudent level of diversification in their portfolios. Overall, we believe that the Fund is well positioned to take advantage of future opportunities in the markets as they present themselves. The past year was notable for its low levels of volatility in the markets. We do not believe this to be sustainable over the longer term and as a consequence we expect volatility to increase. It is important to bear in mind that while occasionally uncomfortable, volatility provides valuation opportunities for disciplined investors and our overweight cash position provides a ready source of liquidity which can be invested in opportunities as and when they arise.

From a manager selection perspective, the Henderson European Special Situations fund returned 4.7% in euro terms in the fourth quarter and 22.3% over the course of 2013. Meanwhile the Jupiter European Special Situations fund returned 6.8% and 24.3% respectively. Both funds outperformed their benchmark over the quarter and over the full year.

■ Important Information

The value of the underlying funds and the income generated from them can go down as well as up, and is not guaranteed. Investors may not get back the original amount invested. Past performance is not a guide to future performance. Performance is calculated on a total return basis, net of all fees.

This document does not provide all the facts needed to make an informed investment decision. Prior to investing, investors should read the Key Investor Information Document (KIID) and seek professional investment advice where appropriate.

Harmony Portfolios are sub-funds of the Momentum Global Funds SICAV, which is domiciled in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier. The fund conforms to the requirements of the European UCITS Directive.

Performance figures prior to the inception date of the Class E share have been simulated to show its lower fees by adjusting the Harmony Euro Balanced Fund Class A share's past performance. Prior to the Class A fund's inception as a sub fund of the Momentum Global Funds SICAV on 12 August 2011, the fund was managed as the Harmony Euro Balanced Incorporated Cell (IC) within the Momentum Mutual Fund. The historical performance of the Harmony Euro Balanced IC Class A fund is shown from 1 January 2009 until the inception date of the SICAV.
