The value of the underlying funds and the income generated from them can go down as well as up, and is not guaranteed. Investors may not get back the original amount invested. The value of investments involving exposure to foreign currencies can be affected by currency exchange rate fluctuations. Past performance is not a guide to future performance.

Regional allocation

Strategy allocation

Currency allocation

All data sourced from Momentum Global Investment Management, JP Morgan Bank (Luxembourg) S.A., Bloomberg. Allocations subject to change.

¹ The peer group median return is a composite of (i) global peers and (ii) local peers, in the ratio 1:2. This weighting methodology is consistent with the "normal" asset allocation of the Fund, with a two-thirds bias towards "home" country assets and currencies.

■ Manager commentary

We decided to leave asset allocation and manager selection unchanged in April. Our remaining put option positions on the S&P 500 were rolled forward, selling in-the-money options that were due to expire at the end of May and using the proceeds to buy at-the-money options expiring in June and September.

■ Important Information

The value of the underlying funds and the income generated from them can go down as well as up, and is not guaranteed. Investors may not get back the original amount invested. Past performance is not a guide to future performance. Performance is calculated on a total return basis, net of all fees.
