■ Manager commentary

We decided to leave asset allocation and manager selection unchanged in April. Our remaining put option positions on the S&P 500 were rolled forward, selling in-the-money options that were due to expire at the end of May and using the proceeds to buy at-the-money options expiring in June and September.

■ Important Information

The value of the underlying funds and the income generated from them can go down as well as up, and is not guaranteed. Investors may not get back the original amount invested. Past performance is not a guide to future performance. Performance is calculated on a total return basis, net of all fees.

The fund is not managed with reference to a benchmark, but its performance may be measured against one.
