■ Manager commentary

The decision was taken to leave asset allocation and manager selection unchanged in May. At the time of writing we are implementing some adjustments within the fixed income component of the Fund, to reduce holdings in corporate credit in favour of increased exposure to US Treasuries where yields have risen substantially this year. These changes will be detailed in full in next month's commentary.

■ Important Information

The value of the underlying funds and the income generated from them can go down as well as up, and is not guaranteed. Investors may not get back the original amount invested. Past performance is not a guide to future performance. Performance is calculated on a total return basis, net of all fees.

The fund is not managed with reference to a benchmark, but its performance may be measured against one.
